

## SMART GOAL

### Specific

My goal is to teach English to 15 kids in Awladi Orphanage.

Enhance studying skills and broaden kids' interest in study.

### Measurable

I will know when I have achieved my goal if kids started to recognize the English words that I have taught. Also they will start to speak and write the words learned comfortably. All these words they have learned will impact their future and be the start of mastering English.

### Achievable

This is my third year of working on this project. The challenging part of this project will be communicating with kids and also managing these kids well. This is manageable because I am continuously learning Arabic so that I can communicate with kids and teachers better. Also since these kids knew me for a while, they recognize me and I will comfortably manage them well.

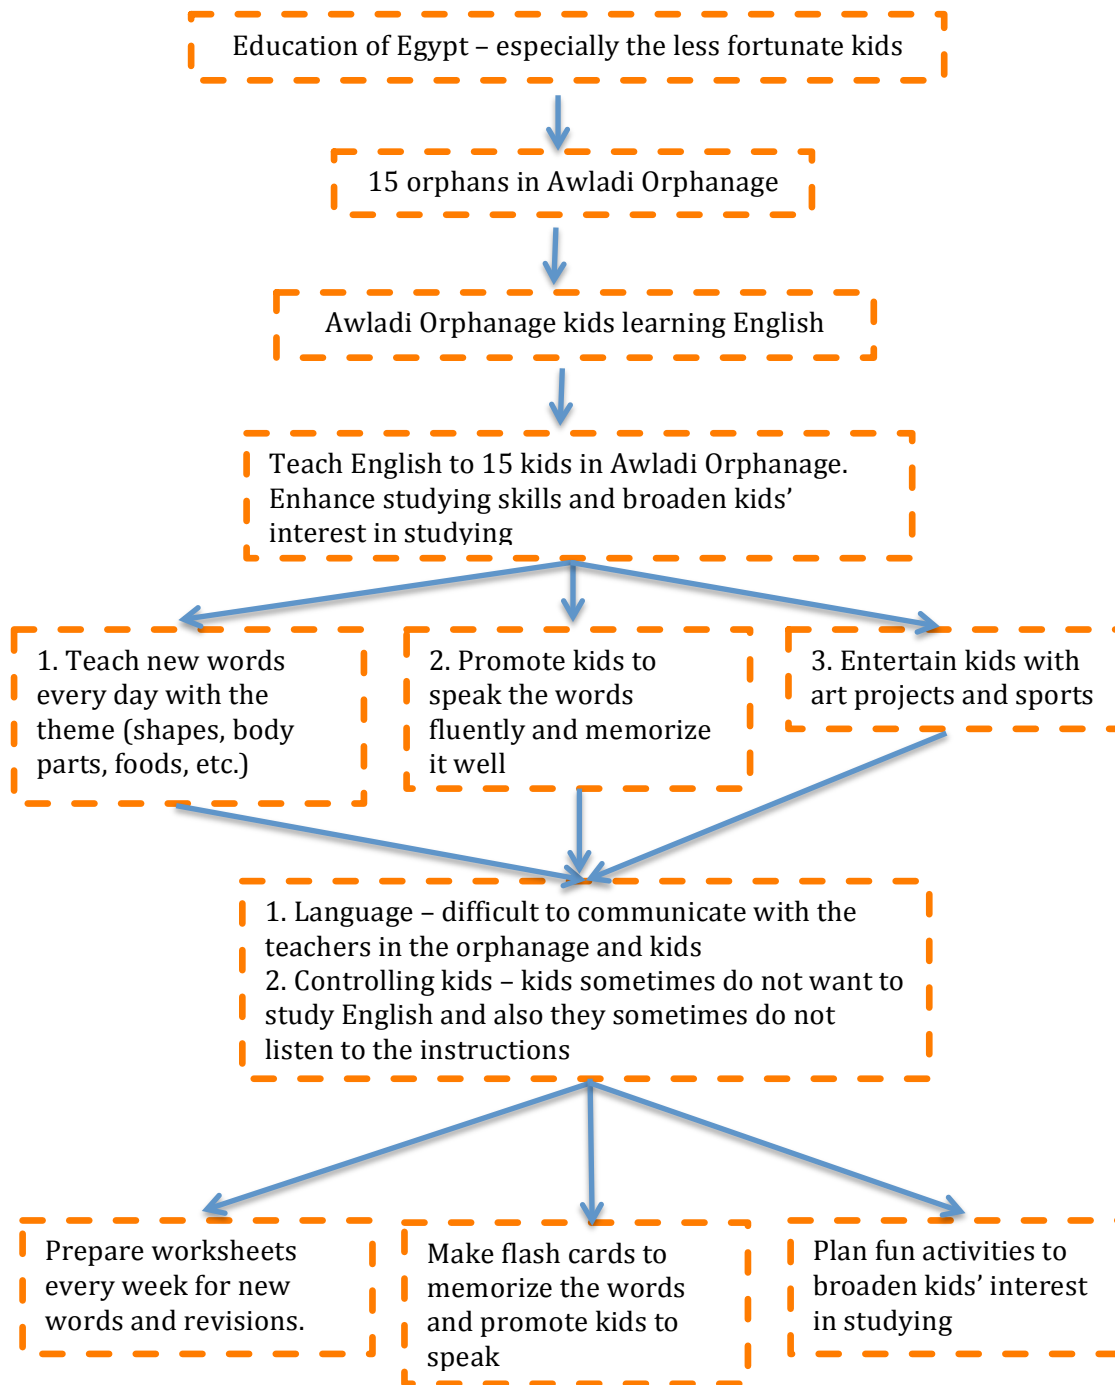

### Realistic

Every week, what I need to plan before I go to the orphanage is the worksheet and activities after the English class. This process requires time for preparation and ideas. With our group's devotion of ideas, we will be able to come up with the good plans for kids.

### Timely

Every Saturday, I will visit the center and follow the requirements of the service learning class.

## ACTION PLAN

## Journals

### Seif

Seif always listens to the directions well and very courteous. He is a meticulous hard working boy.

Because of his desire for perfection, he tends to work slower compared to other kids but after he finishes studying, he always cleans his seats and helps me to clean the room.

Three years ago, Sobhy used to be a kid who always cry and told me that he has stomachache.

Now, he has grown up and always very quiet but bold. He is mature for an eight-year-old.

He works with effort and consistency.

Abdullah is always bright and cheerful.

He works hard with consistency.

He tries to listen to the instructions and follow the rules.
